

FOR IMMEDIATE RELEASE:

Jacob's Wound

A Search for the Spirit of Wildness

Trevor Herriot

Highly celebrated book illuminates the tensions between civilization and nature

Fulcrum Publishing releases the popular work Jacob's Wound for the first time in the United States.

Denver, CO (3/15/2009)—Trevor Herriot is deeply concerned about the impact that being separated from nature and true wildness will ultimately have upon humanity. His dedication, “in memory of wild places lost to ignorance, greed, and fear,” reinforces his worry.

Over time, we have turned our backs on our deep roots within nature and submerged ourselves in the trappings of civilization. Pondering this troubled relationship we have with nature, Herriot, in *Jacob's Wound*, beautifully interprets the biblical story of Jacob and Esau. Within the pages, he queries whether our rift with nature can be reconciled in the way that Jacob and Esau's struggle eventually was.

Herriot makes this biblical story timely, moving deftly between analysis of the brothers' relationship and lyrical observations of our relationship with nature today. Readers come away with a deeper understanding of who we once were, what our culture has become, and the wonderful possibility of reconciliation.

Previously published to wide acclaim in Canada, *Jacob's Wound* is a thought-provoking and important work for a society so easily caught up in the modern man-made world.

“The prose of Jacob's Wound is smooth and burnished, with many poetic touches and images of startling clarity.”

—Globe and Mail
